

WEAPONS OF OPPORTUNITY

This course is designed to give the student the mindset to be in the moment and to use the environment to prevail in a combative situation. Due to the nature of the conflict and other variables, there is no "one answer" to every situation. Weapons of Opportunity helps the student learn to think quickly so they are able to solve the problem at hand. This will help the student learn the right reaction to a given combative situation.

TOPICS INCLUDE:

- Edged weapons - How to use average items that you may carry
- Fan or Flail - Learning to restrain, deflect and distract. Learn your limitations and develop ability to defend or distract.
- Impact Tools - Ways to keep the situation from escalating to the point you would have to use lethal force.
- Shield Devices - Anything that can be used to protect or impact.

Prerequisite: None ("Basic Hand to Hand Combatives" Preferred)
