

Policy on Use of Sig Sauer P320 Pistols at Matches, Classes, and Qualifications

Due to ongoing controversy and safety concerns surrounding the Sig Sauer P320 pistol, the use of this firearm during matches, training classes, and organized qualification events shall be subject to the sole discretion of the designated instructor, match director or agency.

Instructors, match directors and agencies are authorized to:

- **Permit or restrict** the use of the P320 based on their assessment of safety, liability, and event-specific considerations.
- **Establish additional safety protocols** for participants using the P320, if deemed necessary.
- **Deny participation** to individuals using the P320 if the firearm is determined to pose a risk to the safety of others or the integrity of the event. Participants will be offered the use of a similarly sized rental gun at no cost.

This policy is intended to prioritize the safety of all participants and staff, and to provide flexibility for event organizers in managing potential risks associated with the P320 platform.
